New York, Boston and Pittsburgh boiler-makers get on an average about

27 cents

per hour. In that great center of British industry the Clyde boiler-makers get about

14 cents

per hour. Protection makes the difference.

—New York Press.

ONE DRAWBACK.

Chicago Tribune.—Hoke Smith would be a fair-to-middling Secretary of the Interior if he knew more about the interior.

IN TIME.

Kansas City Journal.—It is all right to urge Congress to "vote!" But the country will not get a full measure of relief till the country votes.

A FAMILY TRADITION.

Texas Siftings.—A New York critic says that he can remember the times when he used to think Rose Coughlin the handsomest woman in the world, and adds: "I've got a grandson who is beginning to think the same way."

ORIGIN OF CANNED FRUIT.

New York Advertiser.—We are indebted to Pompeii for the great industry of canned fruit. Years ago, when the excavations were just beginning, a party of Cincinnatians found in what had been the pantry of the house many jars of preserved figs. One was opened and they were found to be fresh and good.

GEORGIA NOW MARCHING THROUGH US. Okego (N. Y.) Times.—"Boys," said a sage old veteran to some comrades, "Hoke Smith of Georgia is boss at the Pension Bureau, and Representative Moses, also from Georgia, has now been made Chairman of the House Committee on Pensions. Boys, I say, in '64 we were 'marching through Georgia,' but Georgia's called the turn on us at last, boys: Georgia's now marching through us!"

FINANCIAL TRUTHS.

Globe Democrat.—The banks should still be judicious, of course, in making loans, but it is no longer necessary for them to refuse reasonable accommodations for their customers. If the financial problem could be solved as easily as the Republicans are going to carry the fall elections, there would be no reason for worrying over it a moment. The gold fund for the redemption of greenbacks is below the \$100,000,000 mark again, but nobody is alarmed about this now.

IT SHINES FOR ALL.

Commercial Gazette.—The New York Sun is a great paper, and it is Democratic in its politics; heretofore it has not favored Free-trade, but now we observe that it is disposed in that direction, for the purpose, as we must believe, of forcing President Cleveland into a hole. To understand fairly what the able editor of The Sun aims to accomplish in its supposed support of the President, one must read between the lines, and it is safe to take the utterances of Senator Hill as an interpretation of the unuttered but implied declaration of The Sun.

WHY THUS?

Commercial Gazette.—There is one thing that the people do not fairly understand, and that is the scarcity of silver dollars. These are largely stored in the United States Treasury, but the people find it more difficult to obtain silver than gold. Why not push the circulation of silver dollars? Intrinsically, we are told, these are not worth as much as gold, but intrinsically they are worth more than paper money. Why, then, should the silver dollar be withheld from circulation, especially in the midst of a currency panic? Perhaps Congress may be too much absorbed in theories to come down to the level of practical results.

THE OUTLOOK IS CHEERING.

Philadelphia Times (Dem.).—The underbrush has been cleared away to a very large extent in the Senate by the magnificent speeches of Senators Morrill and Voorhees. The speech of Morrill, the veteran statesman of the Nation, is the grandest tribute to American statesmanship the Senate has known since the days of Webster, and the speech of Voorhees, on the different plane of political leadership, is one of the most masterly productions of modern politics. Morrill spoke to save a country; Voorhees had the double duty to save a country and a great party with it. Morrill's party is not in power; Voorhees party is charged with the exceptionally grave responsibility of establishing honest money, because it must save the country to save the party of power from annihilation. There will be a stubborn struggle in the Senate, as the free silver robbery will die only in convulsive throes; but we feel warranted in saying that either the Wilson or the Voorhees bill will pass that body, and either will meet the great of the Nation.

PUBLIC

CHICAGO VERSES.

She was a languid maiden
Of the catholic school;
I, waxing sentimental,
Called her a poem in tulle.
Her Greek-shaped head was classic,
Her pose was rhythmic, sweet;
I thought her lines were perfect
Until I scanned her feet.

—Puck.

THE C. and O. will have extra coaches attached to train No. 17 August 31st and September 1st in order to accommodate passengers for the Ripley Fair.

THE L. and N. will sell round trip tickets from Maysville to Paris September 5th to 9th inclusive, good returning September 11th, account Bourbon County Fair, for \$2.

ON account of the Ripley, O. Fair the C. and O. will sell round trip tickets to Ripley at 25 cents on August 25th, 29th, 30th, 31st and September 1st. Good returning September 2d.

THE Maysville Band has been engaged by one of Portsmouth's big shoe companies to head their turnout on Labor Day, next Monday. The boys have lots of admirers in that city and always make a good impression.

STERLING Silver Spoons and Forks, Rogers Brothers' Knives and Forks, at great reduction; also the largest stock of Gold Watches in the city and at prices never before offered. P. J. MURPHY, the Jeweler, Successor to Hopper & Murphy.

OF all the tobacco districts of the world Brown county stands first in the production of the White Burley variety. She will get the premium at the World's Fair, Jacob Fley of near Higgsport is the fortunate farmer, and the farm upon which the sample was raised is within a mile of the one upon which the first crop of Burley grew in this state.

THE Grand Jury at Lancaster has returned fifty-three indictments.

A LARGE number of Maysvillians attended the Ripley Fair yesterday.

ONE month from next Monday the Separate Coach bill goes into effect.

THE pay-roll of the Big Four and C. and O. for the month of July was \$1,050,000.

If you didn't pay your taxes yesterday don't kick when the Collector adds 5 per cent.

THE County, Circuit, Superior and Appeals Courts convene at Frankfort next Monday.

A FREIGHT car was broken open at Stone City and about \$30 worth of merchandise stolen.

AN effort is being made to secure the establishment of a Postoffice at Borders' store, Fleming county.

DR. W. E. BRUCE, son of ex-Senator Bruce, will be married to Miss Pauline P. Jones of Vanceburg September 5th.

MISS KATE VAGHORN of near Hopkinsville is mysteriously missing, and it is feared that she has drowned herself. She was slightly demented.

PUPILS wishing to take lessons in Art apply to Miss Alleyne M. Hamilton, 415 East Second street. Will also take orders for painting and crayon work.

THE height of the spire of the First Presbyterian Church is 148 feet 4 inches. This measurement is from the top of the spire to the pavement below.

RAILROAD tickets to any point at the lowest possible rates, Baggage checked through to destination. If you are going to travel call upon or write to W. W. Wilkoff, Agent C. and O., Maysville, Ky.

A YOUNG man by the name of Billiter and a Miss Neal, both of Scott county, eloped to Covington and married. Miss Neal is a daughter of wealthy parents who objected to the match on account of the groom being a poor man.

SOME time ago several strange ladies visited at Ashland and claimed to be soliciting for the hospital which is to be established at Huntington. It now develops that they were imposters. They secured quite a sum of money.

DETECTIVE McBRIDE, of the C. and O. Railroad, arrested at Higgsport, O., Charles Bohren and Fred Kervie, both suspected of being the parties who some days ago made a wholesale burglary raid on the residences and storehouses at Hinton, W. Va.

W. J. STEELE, City Marshal of Versailles, has brought suit against the City Council of the town of Danville for \$5,000 damages for false arrest, and another suit for the same amount against Chief of Police G. T. Helm and Councilman George W. Welsh, Jr., and William H. Harris.

FLOYD BOUGHNER is the fellow who is under arrest at Augusta charged with firing the stable of Wilson & Pompey, which burned on the night of May 1st. The case was worked up by two professional detectives and the prevailing opinion is that Boughner is the guilty man.

IT is a singular circumstance that in the history of the country the cry of distress is always uttered by a Democratic President. No Republican President ever found it necessary to tell the people of this country that its monetary and business interests were in a deplorable condition.

MRS. F. S. POLLITT, wife of Rev. F. S. Pollitt, well known in this city and vicinity, died yesterday afternoon at her home in Washington. She was the daughter of the late Colonel L. B. Goggin and a sister of Mrs. Colonel Matthey, also deceased. She was a Christian lady in every respect, and her death will be a shock to all those who were fortunate enough to know her. The funeral services will be held at the house at 3 p. m. to-morrow, and the interment will be at the Washington Cemetery.

TREASURER HALE and Auditor Norman will hold a conference to-day at which will be decided whether the state will be compelled to suspend payment on all other obligations in order to meet the School Fund indebtedness of \$800,000 which falls due October 1st. The last monthly statement of the Treasury showed a net balance of something over \$250,000 on hand, and this has been increased since then, but the heavy drains that have fallen upon it has continued the stringency, which may cause suspension.

IT is now remarked by all that this year's tobacco crop is the poorest in quality and quantity that has been grown for years. Conservative farmers now estimate the crop at 50 per cent. below the average. Should the drought continue the production will show a relative decrease. Those who have their money invested in last year's crop are in great luck, as the small crop promised will surely cause a big boom. A Lewis county buyer who has an immense purchase on hand has been offered 5 cents per pound more than it cost him and he refuses to sell, expecting to make more than that by holding it a while yet.

THE Board of Sinking Fund Commissioners, by resolution introduced by Attorney General Hendricks, have preferred charges of cruelty against Deputy Warden Mike Rooney, and appointed a committee to investigate the matter. Deputy Rooney says that he punished prisoners who were found to have knives, saws and other instruments on their person shortly after the plot for an outbreak was discovered a few days ago, and that they were only struck fifteen lashes; that he has not exceeded the rules governing the prison, and that he will prove himself guiltless of the charges. Attorney General Hendricks refuses to say further than that he had been reliably informed that Mr. Rooney had been guilty of cruelty, and wanted the matter investigated.

WETTER's Circus will be at Aberdeen next Wednesday.

THE alarm of fire this morning was caused by the burning of a brush pile in the West End.

Arnett—Greenwood.

The residence of Mr. and Mrs. A. B. Greenwood on Commerce street was the scene of a pretty wedding Wednesday afternoon, in which Miss Grace Greenwood became the wife of Robert C. Arnett of Cincinnati. Rev. W. O. Cochran of the Central Presbyterian Church performed the ceremony in the presence of a number of relatives and intimate friends. The bride was richly attired in navy blue silk and carried a bouquet of bridal roses.

After a sumptuous repast Mr. and Mrs. Arnett left for their future home in Cincinnati, accompanied by A. MacLachlan of that city.

The presents were numerous and handsome. May peace, happiness and prosperity attend them ever on their journey through life.

RIVER AND RAIL.

Drift and Spikes Picked Up By "The Ledger's" Delegate.

The river is rising at this point.

The sidewheel Pomeroy packets will all be out to-morrow.

In September, 1881, the river was at its lowest at Cincinnati, there being only one foot and eleven inches in the channel.

There will be no large water at Pittsburgh this rain. It will take several more good hard rains before the dust is converted into mud at headwaters.

President M. E. Ingalls and Traffic Manager Walker of the C. and O. Road, met the officers of the New River Coal Company in Cincinnati yesterday and discussed matters pertaining to the interchange of business between the two corporations. President Ingalls says that the C. and O. will bring coal into Cincinnati this winter at \$2 per ton.

The Pomeroy Tribune says: Edward Turnbull, who has kept a careful record of the stage of the water in the Ohio river, says it has not been so low by three inches this season as it was in September, 1881. In that year he cut "E. T., 1881" on a rock near the fresh water pump at the Pomeroy Salt Furnace, showing how low the water was in that year. The water was lower in 1881 than it has been at any other time for forty years.

The following is from yesterday's Enquirer: The reign of the crawfish and tadpole dynasty in the pools—formerly known as the "La Belle River"—in front of our city is for the present at an end. The Pittsburgh and Kanawha factions have united, and in a few days will sweep down and take possession of the field. The grasshoppers will fly away; the sandbars will cover their heads with shame and be seen no more—this year. The mosquito fleet will return sadly to their homes and the packets wheel into line and resume their triumphant sway.

The strike on the Louisville and Nashville Railroad is on. Yesterday afternoon 900 men employed in the shops of the road in Louisville laid down their tools and left their work until further orders from their District Master. At about the same time dispatches were received from Bowling Green that the men in the shops there had also gone out according to an order sent from Louisville. By to-day all the shophouses of the whole system of the road between Cincinnati and New Orleans will strike and it is expected that all the other employees of the L. and N. will follow suit, unless the management should decide to withdraw the announcement that a reduction in wages would take place.

EVERY family or traveler in a malarial district should have a supply of Ayer's Ague Cure. A positive antidote for malaria.

Good Service.

To accommodate the large World's Fair travel the Chesapeake and Ohio trains Nos. 1 and 2 will now run through, without change, all cars between Washington and Chicago over the Chesapeake and Ohio and Big Four routes.

Kentucky Fairs.

Below is a partial list of the fairs to be held in Kentucky this year:
Williamsburg, August 30th—4 days.
Bowling Green, September 5th—3 days.
Paris, September 6th—3 days.
Elizabethtown, September 12th—4 days.
Winchester, September 12th—3 days.
Cynthiana, September 19th—4 days.
Glasgow, September 27th—4 days.
Hartford, September 27th—4 days.
Germantown, October 11th—4 days.

Mrs. R. C. Rhea.

of Milford, Neb., says she suffered greatly from a complication of diseases of female weakness and liver and kidney troubles. Her health was fully restored by using Dr. Hale's Household Tea, the most pleasant and most effective medicine known. Twenty-five and fifty cents per package at Power & Reynolds' Drugstore.

World's Fair Train.

C. and O. train No. 17, leaving Huntington at 6:40 a. m., reaching Cincinnati at 12:25, noon, makes direct connection for Chicago, reaching the World's Fair City before 10 p. m.

By this train passengers are sure of securing comfortable seats and avoiding expense of Pullman sleeper.

Every one who has taken this train is delighted with it, as it reaches Chicago at a good bedtime, and one can start out to the World's Fair early the next morning, refreshed by a good night's sleep.

A MOTHER'S DEVOTION.

She Walks Many Weary Miles to Intercede for Her Convict Son.

A most telling example of a mother's love, and the extent she will go for her child, was exemplified at Frankfort. Mrs. Mary Hurst, an aged widow, lives in Jackson county, a distance of almost across the whole state. She has a son, John Hurst, in the penitentiary, serving a sentence of a number of years.

Mrs. Hurst was so extremely poor that she was unable to pay her railroad fare to that city, but coming by the assistance of those who would aid her on the railroad, and walking quite a distance of the way. She arrived there feeble, penniless and worn, to plead with the Executive for clemency for her wayward son.

She has made two trips under equally adverse circumstances, and has walked over a great part of Jackson and Laurel counties getting petitions in her son's interest. Young Hurst was her only son and support, and she tells a most pitiful tale of privation and hardship, and seems to have but one hope, that of gaining her son's liberty.

It Cured His Wife and Children. PURCELL'S, ROBERTSON COUNTY, N. C.—We gave a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to a gentleman whose wife was bad off with bowel complaint and it cured her. His children were also taken with bowel complaint and it cured them. It is certainly a good preparation.

THE WORLD'S MONEY SUPPLY.

Relative Production of Gold and Silver—Timely Figures.

The production of gold and silver (coinage value) in 100 years has been:

To 1893.....\$10,738,800,000
Of this amount gold was.....5,633,908,000
Of this amount silver was.....5,104,892,000

The production of silver from 1849 to 1891 was annually between \$30,000,000 and \$51,675,000, remaining for fourteen years under \$50,000,000. It stayed under \$60,000,000 until 1872, when it was \$65,250,000, the gradually advanced to \$86,700,000 in 1880, \$102,000,000 in 1881 to \$124,000,000 in 1889 and \$196,000,000 in 1892. The gold production in 1849—Cincinnati year—was \$27,100,000. It jumped to \$44,450,000 in 1850, to \$67,800,000 in 1851, \$132,750,000 in 1852 and \$155,450,000 in 1853—the largest production on record. It fell next year to \$127,450,000, and then gradually fell off until 1874, when it was \$90,750,000; then it rose again and stood above \$100,000,000, except in 1883, when it was \$95,400,000. It gradually rose each year until in 1892 it was \$130,817,000.

The highest price for silver in London was in 1873-'74, 59½¢, and at that price our silver dollar was worth 85½¢ cents, and its ratio to gold was 16:17. The lowest price was last month, 52½¢, and then our silver dollar was worth 34 cents and the ratio was 25:52.

Money in United States: Silver \$615,000,000, per capita \$9 18; gold \$604,000,000, per capita \$9 01; paper \$412,000,000, per capita \$6 15; total, \$24 34.

The world has approximately \$3,582,605,000 gold money, \$4,042,700,000 silver money and \$3,635,573,000 paper money.

France has more money per capita than any other Nation; then comes the Netherlands, then Australia, then Belgium and then the United States.

A Valuable Remedy.

KELLEY'S, BLADEN COUNTY, N. C. Chamberlain's Medicine Co., Dec. 30th, 1892. Please send me three dozen Chamberlain's Colic, Cholera and Diarrhoea Remedy, 25¢ each. This medicine is too well known here to need any recommendation. It is a valuable remedy.

A SHORT pamphlet devoted to the live stock interests of Kentucky has been prepared by World's Fair Commissioner John W. Yerkes of Danville. It contains articles on the Kentucky thoroughbred, the trotter and saddle horse, as well as a chapter descriptive of the Shorthorn cattle. Its object, as explained by Mr. Yerkes, is to acquaint visitors with the extensive stock interests of the state and thus to induce many to visit its most noted farms.

TWENTY per cent. more of the \$4,444,500 bonded indebtedness of the World's Columbian Exposition will be paid off during the month of September. Ten per cent. will be payable September 7th and the other 10 per cent. September 15th. Twenty per cent. has already been paid. While the bonded indebtedness is being paid off the floating debt has not been untended to and it is the consensus of opinion in the directory that with good weather the financial showing of the Exposition will be as creditable as the Exposition itself.

Bad Whisky.

Ripley Bee.—A prominent Ripley man went home the other evening and found a huge snake coiled upon his lawn. He seized a hatchet and chopped the serpent into small pieces and went to bed thinking he had done bravely and well. Next morning he found the sprinkling hose on the lawn in pieces about a foot long.

County Court.

George W. Blatterman, County School Superintendent, renewed his bond, with L. C. Blatterman, C. B. Pearce, Jr., and Emory Whitaker as sureties.

An inventory and appraisal of the personal estate of Joseph G. Seamon, deceased, was filed and ordered recorded.

MAGNIFICENT DISTANCES.

How Far You Must Walk in the White City.

How far must a man walk to see all the Fair? This is a hard question to answer, but here are some fairly accurate figures on the larger buildings. If you wish to traverse the main aisles in the Manufactures Building, just to get a good general impression, but without edging around thousands of show cases, you will find nine main aisles East and West, with North and South aisles, eleven in number, making a total length of 36,500 feet, a trifle less than five miles. The minimum estimate for the gallery on the same basis is 12,500 feet. This does not allow for passing through the narrow aisles of open exhibits. It refers only to what might properly be called the streets and avenues. Furthermore, it does not allow for doubling up on each thoroughfare. The visitor must see both sides at the same time.

The same rule is followed in the case of each building.
Manufactures, main floor.....36,000
Manufactures, gallery.....12,500
Agriculture, main floor.....9,900
Agriculture, gallery.....4,500
